Abiy Regime's Forces Kill Civilian, Burn Homes, and Loot Property in Tole District, Southwest Shaggar

ONM-ABO | May 13, 2025

The Prosperity Party (PP) regime continues its campaign of **terror and brutality** against civilians in Oromia. On **May 12, 2025**, heavily armed forces under the Abiy Ahmed administration committed multiple atrocities in **Tole District of Southwest Shaggar**, according to residents who spoke to ONM.

In **Bantu Bodha village**, soldiers **murdered a local farmer named Mangistu Getacho and threw his body into a ditch**. The 45-year-old father, known in his community as a peaceful man with **no political affiliation**, was simply on his way to his farmland when he was executed, locals report.

On the same day, in **Dhukat village**, soldiers **burned down the home of Mr. Obsee Gudissa**, destroying all of his belongings. In a separate incident in **Aqooce Maram village**, four livestock were stolen from **Mr. Asinaqa Tamama**, marking a pattern of coordinated looting and destruction by regime forces.

These acts are part of a **wider military crackdown** across Oromia, where the regime has **intensified its campaign of extrajudicial killings, property destruction, and intimidation** against unarmed civilians.

Residents say the actions of the regime amount to **state terrorism**, and are calling on the international community to **condemn the PP's escalating war crimes and human rights violations** in the region.
